Subject: Drug Awareness Program

Magisterial District Judge Opiela, and Probation Officers Hathaway and Woodward:

As some of you may recall, this past Wednesday evening I attended the drug awareness program at North Hills Junior High with my fifth-grade son.

Probation Officer Hathaway and Magisterial District Judge Opiela attended live, and Probation Officer Woodward attended via his fine performance in the "drug paraphernalia" educational video that was presented.

I found the program very valuable. It was well presented, authoritative, informative, and most significantly to me - an excellent "springboard" opportunity for me to initiate some important discussions with my son regarding the topics addressed. The feedback I received from other parents who attended was universally positive.

I appreciate all of you taking the time to participate in the program and your continued commitment to the children of our community - including my own.

Sincerely,  
Robert J. Colville
